

INNOX PRO GTX LO TF FOR YOUR GOOD LOOK.

Light, dynamic and multi-functional - these three qualities perfectly describe the new INNOX PRO GTX LO TF. The multi-talented all-rounder is not only the perfect training shoe, but is also the ideal footwear for dynamic missions conducted on urban and moderate terrain. The performance-oriented mission low-cut shoe stands out thanks to its pleasant rolling properties and the perfect cushioning provided by DynaPU®, a material that LOWA developed itself.

1 An outsole designed by LOWA with an optimised rubber compound to provide good grip.

DYNAPU®

2 LOWA DynaPU® provides noticeable cushioning with every step.

3 The double-layer midsole is directly injected onto the footwear. The layers include carefully coordinated degrees of rigidity to create the best-possible comfort.

4 A special frame design known as LOWA MONOWRAP® provides stability.

SUITABLE FOR

Personal Security

The INNOX PRO GTX LO TF is the ideal footwear for personal security work. It combines good comfort with lightweight construction and a discreet appearance to prevent injuries caused by abrupt movements. The outsole comes with a moderate profile and is designed for urban areas.

Tactical Units

The INNOX PRO GTX LO TF is the ideal boot for tactical units. It combines a stable upper construction with lightweight design and light to moderate sole stiffness to prevent injuries caused by abrupt movements without limiting manoeuvrability. The outsole comes with a moderate profile. It can be used on urban and moderate terrain.

Municipal Services

The INNOX PRO GTX LO TF is the ideal shoe for work at the municipal services. The very comfortable footwear includes robust materials and design as well as a discreet look.

SOLE

LOWA® MULTI TRAC®

The triangular profile design used in the sole LOWA® MULTI TRAC® is ideal for multifunctional outdoor uses on moderate terrain. The sole provides pleasant rolling properties, helping to prevent fatigue from setting in.

MIDSOLE

ca. 100 %

Polyurethane (PU)

Polyurethane (PU) is a soft plastic that has very good cushioning properties and is usually used in the midsole as a result. Through the use of PU, the soles become lightweight and functionally flexible.

INSOLE

ca. 45 % Felt

Felt is a textile fabric that is made of disordered fibrous material that is difficult to separate. The textile fabric is characterised by its high elasticity and its insulating qualities. As a result, it is used in particular as a component in insoles and as an insulating divider.

ca. 50 % Memolatex

Memo latex is composed of very soft latex foam. In addition to being lightweight, memo latex supports the natural rolling motion of the foot. It is primarily used in shoe insoles as a result. Memo latex also individually enwraps the foot and is particularly comfortable as a result.

UPPER MATERIAL

ca. 30 % Fabric

Our natural and synthetic fabrics facilitate optimal warming and moisture management with the help of their usage-specific characteristics. Thanks to their structural design, they are smooth and make our products extremely comfortable.

ca. 70 % Synthetic

Our synthetic fabrics made of such plastics as nylon, polyester, polypropylene and elastane (Lycra) are primarily used as design elements and protection for the upper due to their abrasion resistance and tear strength.

LINING MATERIAL

Shoes equipped with a GORE-TEX extended comfort footwear membrane are permanently waterproof and are particularly suited for warm weather.

FUNCTIONS

The footwear is flexible and supports natural rolling properties as a result.

PPE REGULATION

Please note that if it is intended to use the purchased products as personal protective equipment in accordance with Art. 3 No. 1 of Regulation (EU) 2016/425 (PPE Regulation), the user is responsible for checking the products for the presence of a corresponding certification (see technical data of the product). If the product lacks a certification required for use as personal protective equipment as defined by the PPE Regulation, the product may not be used as personal protective equipment or only for non-professional purposes.
